\* About REKA:

REKA (רֵקָעַ) means background. As a Jew you may be aware of or familiar with various every day religious practices. But do you know how the methods of performance are informed by Jewish law, history and sociology? We invite you to empower yourself with the knowledge you need to be an "informed Jew" so you can make sensible decisions based on the facts. The classes will not present a conclusion. Rather, various approaches and differing opinions will be presented, leaving you to be the judge and jury in taking charge of your Judaism.
